Storage Pods are a beautiful and easy to install addition to Transolid solid surface walls. Storage pods can be used horizontal or vertical and install between studs. Add solid surface material to the inside backwall of storage pods to either match or coordinate with wall colors.

Horizontal Storage Pods are available in all brushed stainless steel or with solid surface material on backwall. All pods have a 1/2" brushed stainless steel frame surrounding the pod for a clean finished look.

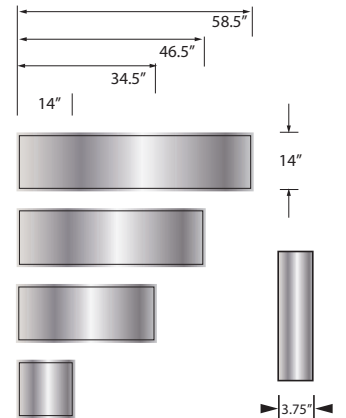

Vertical Storage Pods include 3/8" tempered glass shelves with locking clip. Shelves are cut with 1/4" clearance to allow water to run behind the shelves. All pods have a 1/2" brushed stainless steel frame surrounding the pod for a clean finished look. Vertical Pods available 2 in styles.

Style 1: STV1 Brushed stainless on the backwall and solid surface material on side walls (required to hold shelves).

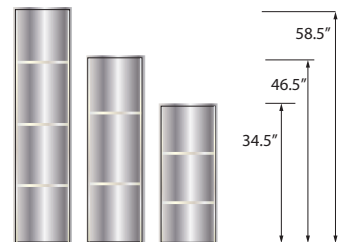

Style 2: STV2 brushed stainless pods are lined with the solid surface material.

**Vertical LED Lighted Pods** are lined with solid surface material and have waterproof light strips on both sides of vertical walls. Illumination of lights is triggered from a motion sensor built into the storage pod. Power is thru 12V battery pack stored within storage pod. The battery pack is secured in pod with magnet and is easily removable for recharging via a micro USB. Glass shelves with adjustable locking shelf clips are provided.
